Skills

- **Languages**: C++, Java. Python, SQL
- **Python Frameworks**: Pandas, NumPy, TenserFlow, Scikit-learn, Seaborn, Matplotlib
- **Tools/Platforms**: Power BI, Tableau, Excel
- **Soft Skills**: Problem-Solving skills, Teamwork, Time Management, Adaptability

Projects

Crime Data Records – Crime Analysis & Visualization System | Github August 2025

- Crime Analysis and reporting system developed using Python for data preprocessing and statistical evaluation.
- Performed data cleaning and EDA to identify trends, patterns across crime categories.
- Implemented visualizations such as bar charts, heatmaps and line plots to present crime rates over time and across regions .
- Generated structured analysis reports suitable for presentations and dashboards.

Tech: Python, Pandas, Numpy, Matplotlib, Seaborn, Jupyter Notebook

Swastify – Fitness & Wellness Tracking Application | Github June 2025 – July 2025

- Developed a fitness tracking application using Android Studio and Kotlin with features like login, signup, profile page, calorie tracker, workout tracker, and BMR calculator.
- Added Sara AI (virtual coach), Streak tracker, progress bar and nutritional tips card to enhance user engagement and motivation.
- Ensured smooth UI flow and data handling throughout the app.

Tech: Android Studio, Kotlin, Firebase.

Training

Android App Development Training | Certificate June 2025 – July 2025

- Completed hands-on training focused on building Android apps using Kotlin.
- Covered core concepts including UI design with XML, intents, fragments and data storage using Firebase.
- Gained practical experience in creating responsive layouts, implementing user authentication and integrating APIs.
- Developed multiple mini projects and a full- featured application as a part of the training.

Tech: Android Studio, Kotlin, Firebase.

Certificates

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM.| Certificate August 2025
- NPTEL Cloud Computing | Certificate April 2025
- Oracle Cloud Infrastructure Foundation Associate | Certificate September 2025

Achievements

- **Achieved 4 star in CPP on HackerRank** | HackerRank November 2025
- **Participated in "Code-A-Haunt" 24-hour hackathon**: February 2024

  Secured 56th position among 1k participants

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.2*** *August 2023 - Present*
- **St. John's School** Ghazipur, Uttar Pradesh
  Intermediate; ***Percentage: 90%*** *April 2020 - March 2022*
- **St. John's School** Ghazipur, Uttar Pradesh
  Matriculation; ***Percentage: 92%*** *April 2019 - March 2020*
